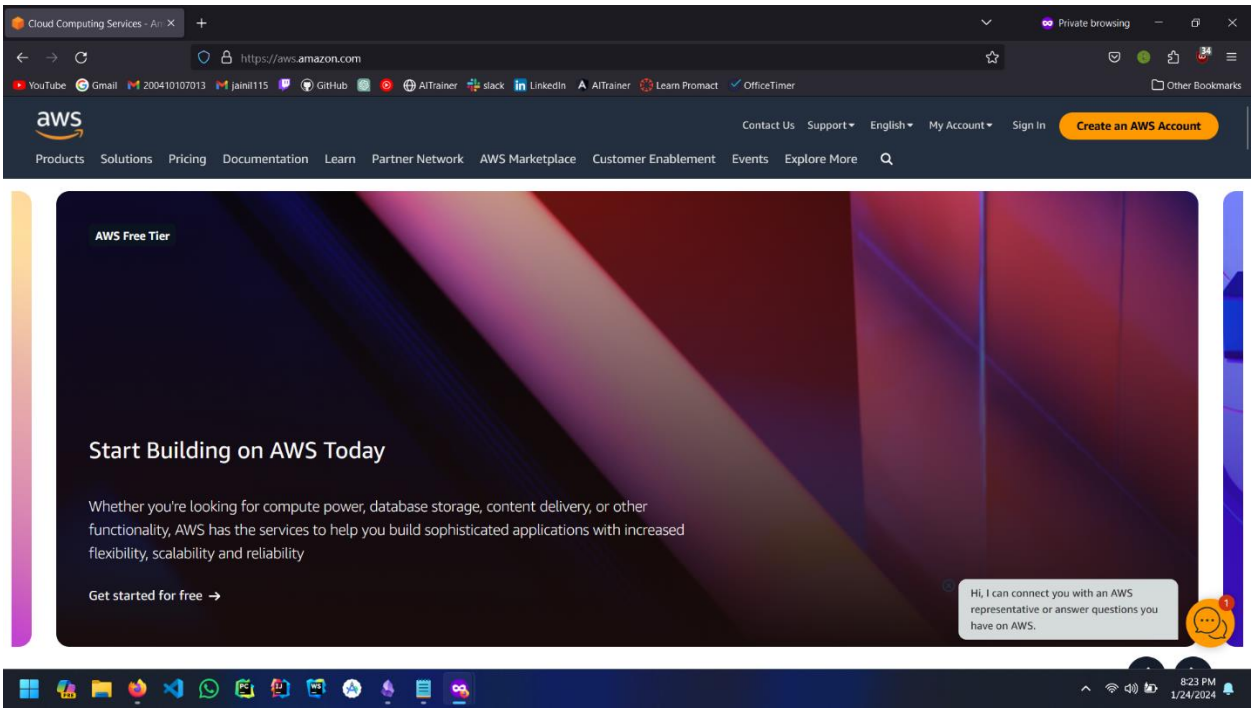
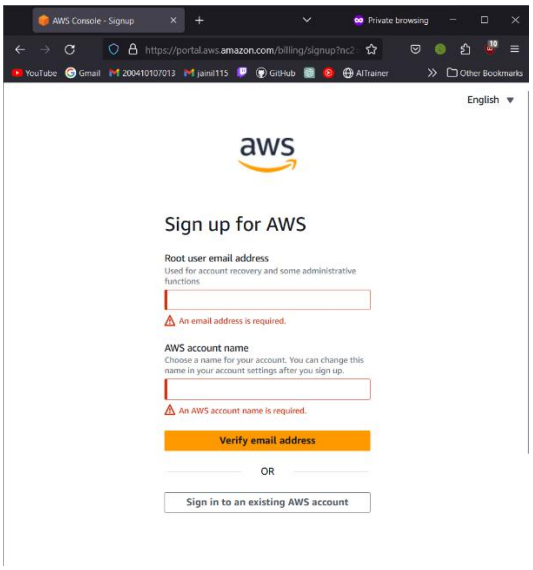
TASK 1: Create your AWS account with free tier.

Steps to create AWS account with free tier:

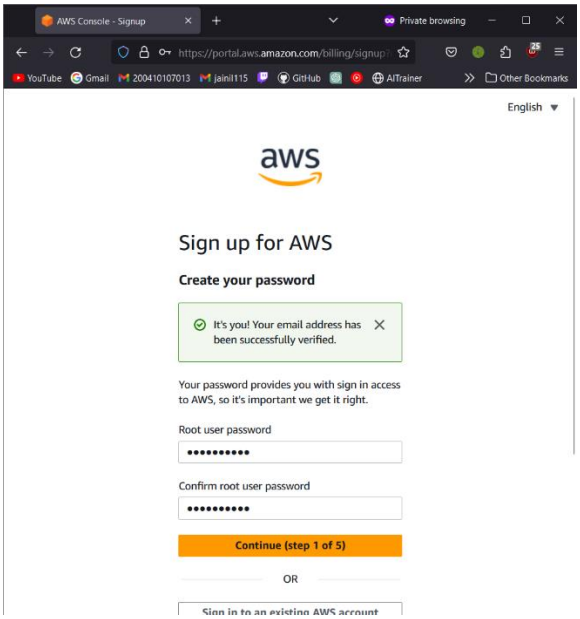
1. Visit AWS's official website https://aws.amazon.com/ and click on the "Create AWS Account" button.



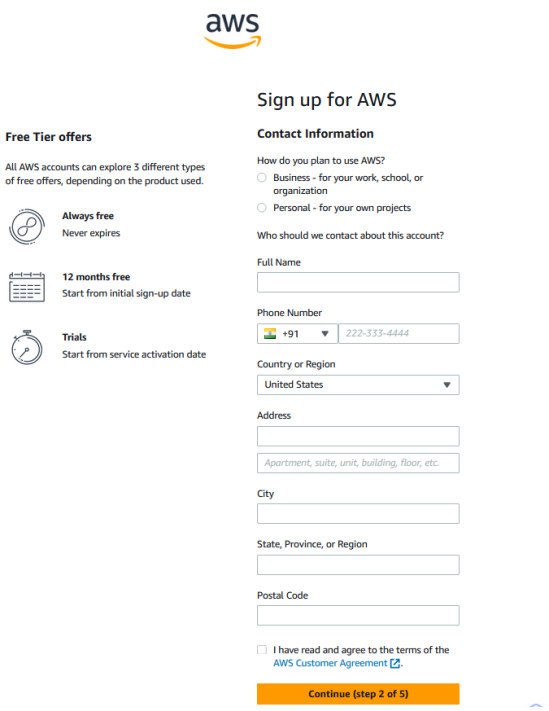
2. Enter your email address as the root user email and specify the AWS account name. Proceed to verify your email address by entering the verification code sent to your root email.



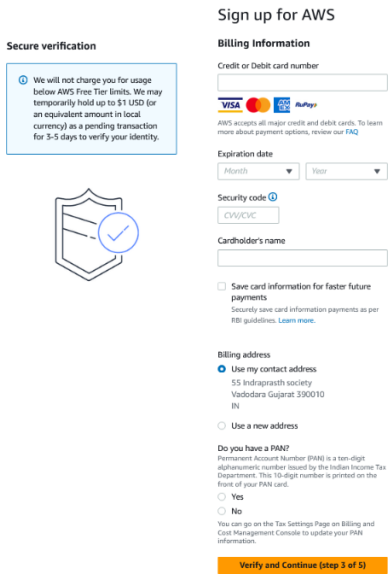
3. Then create a secure root password by following the password guidelines provided by the AWS



4. Then provide necessary personal information, including your mobile number, country, address, state, and postal code.



5. Set up your payment method using either a credit or debit card. Additionally, input your PAN card details and a phone number for verification purposes.



6. Now sign in using your email and password, and complete the verification process by entering the code sent to your registered email. You are now successfully logged into your AWS account.
