

## TASK 5: Password Policy:

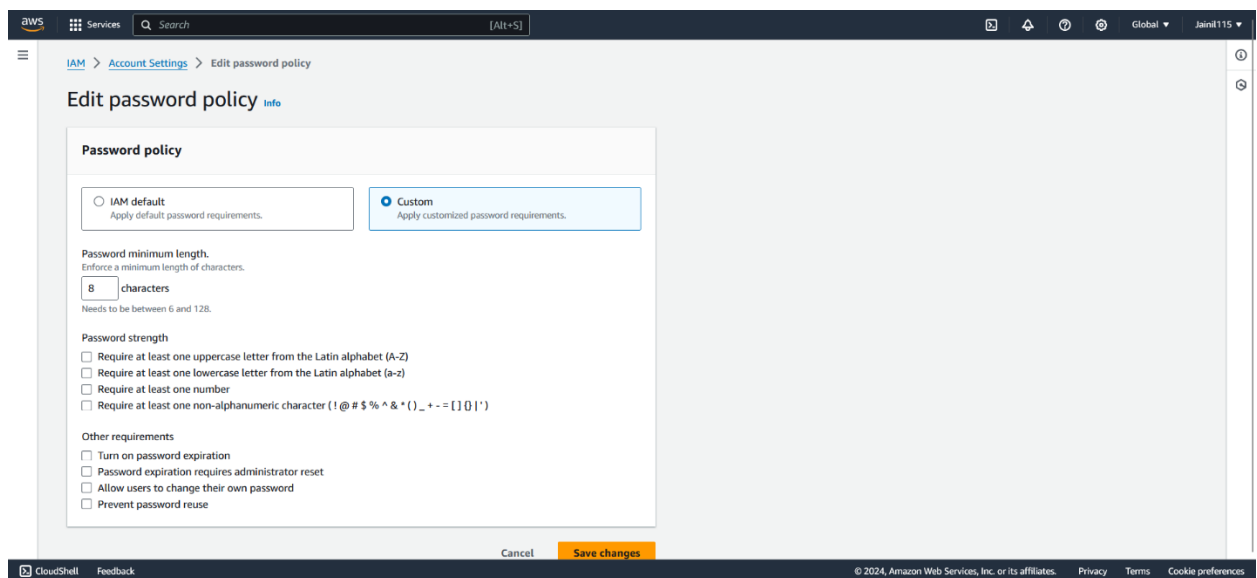

1. Modify the account password policy to enhance security.
2. Enforce specific password requirements.

### Steps to modify the account password policy:

1. Navigate to Account Settings in IAM.

2. Click on "edit" inside "Password Policy" tab. Then change the Password Policy from IAM default to custom

3. Change the password minimum length to 12 characters, select "Require at least one uppercase letter from the Latin alphabet (A-Z)", "Require at least one lowercase letter from the Latin alphabet (a-z)", "Require at least one number", "Require at least one non-alphanumeric character". Select "Turn on password expiration" and set expire passwords in 90 days. Select Prevent password reuse to prevent using the same password again then set number of passwords remembered to 10. Then click on "save changes".
